EDITORIAL

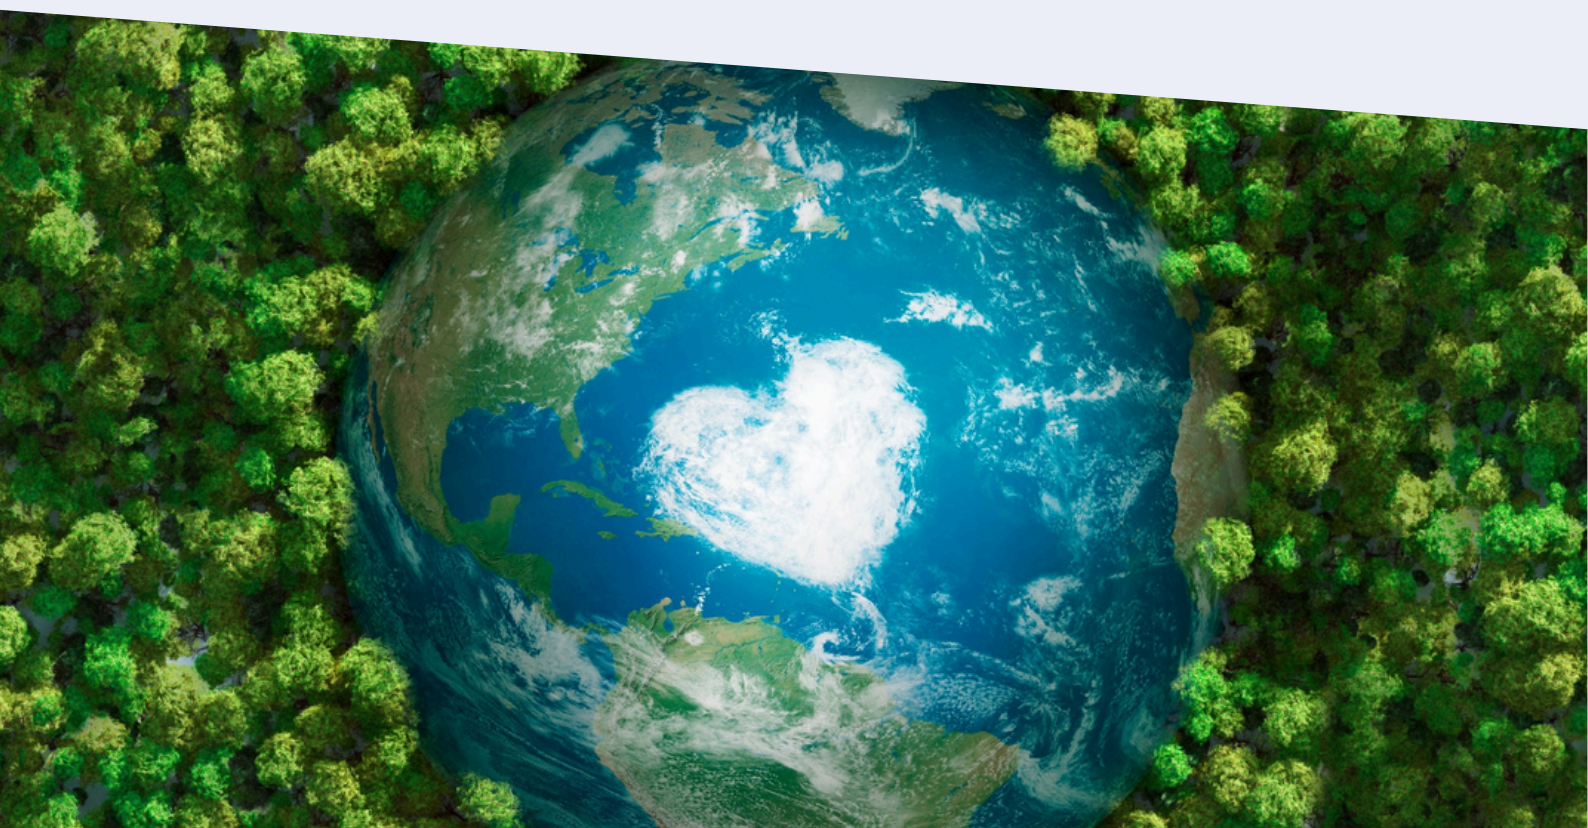

In April, IFI Films highlights commitment and reflection. To mark **Earth Day** (April 22), we explore major environmental issues through a selection of impactful films: *Tant que le soleil frappe*, *Sur les chemins noirs*, *Bigger Than Us* and *Les Gardiennes de la planète*. These powerful stories challenge our relationship with nature and our collective responsibility.

April also marks the return of **La Nuit des Idées**, under the theme 'Power to Act'. A screening-discussion of *Goliath*, a thriller on the dangers of pesticides, will enrich this reflection.

Finally, classic cinema takes the spotlight as well, with *Les Yeux sans visage*, presented with the Jakarta Cinema Club as part of the monthly **After Hours** program, and the launch of the **SAE du cinéma** program in partnership with SAE Indonesia, featuring Jean-Luc Godard's *Le Mépris* as the opening film.

A month to watch, reflect, and take action. See you soon at IFI!
